Love the flavor and moisten mouth pretty good. Like these better than the type that stick to your gums or cheek.

★★★★★ **Worth it in the long run**

This winter has been super cold and my dry mouth hasn't been crazier. Gladly, These have helped. I've tried gum, halls and those seemed to help short term but not long run. These are relieving throughout the entire day.

★★★★★ **Real help for serious dry mouth**

Tastes better than other xylitol tablets I've tried. Medication keeps my mouth extremely dry. I drink lots of water, but it doesn't help for long. These little things have made a huge difference!
